MATTHIEU ROLLAND, PHD

SENIOR DATA SCIENTIST | BIOSTATISTICIAN | EPIDEMIOLOGIST

Mathematical Modeling Engineer and epidemiologist (PROFET) with 15+ years of experience in public health (Inserm, WHO, UCSD). Expert in **R/Tidyverse** and reproducible data pipelines. Recently PhD-certified, I focus on advanced modeling for field-oriented decision making. Based in Grenoble.

EXPERIENCES

2018 | today

Senior Research Biostatistician

INSERM (U1209 - Team ERES) — Grenoble, France

- Designed and implemented reproducible data pipelines for the **Sepages cohort**.
- Developed and maintain the **{preprocess}** R package to automate and standardize data cleaning.
- Performed advanced modeling (Bayesian, ML, mediation) on complex environmental health data.
- Supervised engineers and PhD students; promoted open science and Git best practices.

2022 | 2023

Research Data Scientist (Consultant)

World Health Organization (WHO) — remote

- Pioneered the development and testing of the **WHO Global Clinical Data Platform** for rapid pandemic response.
- Authored SAPs and led international clinical analyses for **COVID-19** and **Mpox** to inform global health guidelines.
- Methodological lead for the **O2COV2 project**: Assessing medical oxygen requirements across all WHO regions.

2020 | 2021

Project Manager

R Epidemics Consortium (RECON) — remote

- Coordinated global teams to deploy collaborative platforms for field epidemiologists.
- Integrated Trello/GitHub workflows to streamline software development and field needs.

2013 | 2018

Statistician & Data Scientist (USA & France)

UCSD, CNRS, CareFusion — California / France

- **4 years in the USA**: Neurosciences, teratology cohorts, and private sector analytics.
- **CNRS**: Lead statistician for randomized controlled trials in neuro-cognition.

2009 | 2012

Environmental Health Epidemiologist

Santé Publique France (InVS) — Paris, France

- Investigated reproductive health trends using **FIVNAT registry data** and advanced **spatiotemporal models**.

EDUCATION

2025 — **PhD in Applied Statistics for Epidemiology (VAE)**
Université Grenoble Alpes — Grenoble, France

2011 — **Field Epidemiology Training Program (PROFET)**
Santé Publique France — Saint Maurice, France

2009 — **Applied Mathematical Modelling Engineering Degree**
INSA Toulouse — Toulouse, France

Specialised in biostatistics.

SELECTED PUBLICATIONS

Prenatal phenol exposure and child behaviour: insights into the hypothalamic–pituitary–adrenal axis from two prospective mother–child cohorts
M Rolland et al.; *The Lancet Planetary Health*, 2025

Exposure to phenols during pregnancy and the first year of life in a new type of couple-child cohort relying on repeated urine biospecimens
M Rolland et al.; *Environment international*, 2020

Decline in semen concentration and morphology in a sample of 26 609 men close to general population between 1989 and 2005 in France
M Rolland et al.; *Human Reproduction*, 2013

SKILLS & STRENGTHS

Expert R / Tidyverse
Reproducible Research
AI-Assisted Workflow
Complex Stats (Bayesian, ML)
Field Epidemiology
Bilingual English

INVOLVEMENT

Coordinator of the Grenoble R User Group for 3 years
Member of RECON
Instructor at UGA & Applied Epi
